

\* *Definition of Inclusive Playground: A universally designed, sensory rich environment that enables children to develop physically, socially and emotionally.*

The concept of “universal” or “inclusive” design means that the design of products and environments should make them usable by all people to the greatest extent possible, without the need for adaptation or specialized design. This includes people of all ages with autism, intellectual disabilities, hearing impairments, cerebral palsy, spina bifida, and other mental or physical disabilities, as well as their caregivers. The concept also addresses the needs of other children. (NRPA)

**7)** Have you been to the nature playground at White Deer Park? If so, what is your favorite part of the playground:

**8)** White Deer Park is improving the playground. Circle (3) improvements you'd like to see:

# WHITE DEER PARK SPLASH PAD & PLAYGROUND

The Town of Garner is seeking community input on the White Deer Park Splash Pad & Playground Design. The following questionnaire is designed to collect information about the surrounding community, gather ideas on potential Splash Pad and Inclusive Playground features, and gauge interest in the planning process. Thank you for your time and interest!

\*Please note that all questionnaires received are subject to the North Carolina Public Records Law and may be disclosed to third parties.

See inside for questionnaire >>
